SHUTTLE

Pack Up for the Day

Bring all your usual mountain or beach gear—there's plenty of storage space on the shuttle. Boogie boards are great, but long boards are not recommended. Bring along your rollerblades, but they must be carried, not worn. Each ParkLINK shuttle has room for 20 seated passengers plus 2 more passengers in wheel chairs. There is also a rack for three bicycles.

Pack a picnic or snacks for the day. You'll find a few locations along the ParkLINK shuttle route where food is available (see map) and two stops (Malibu Creek and Zuma) have coin-operated vending machines for water. Be sure to bring plenty of sunscreen and a watch or cell phone so you'll know when to head on back to the shuttle.

For the safety and comfort of our riders, please no open food or drinks on board, except water. Shoes are required. Service animals only, no pets. Kids traveling without adults must be older than 12.

If You Miss the Bus

Remember, there are only two morning and two afternoon connections between the Metro 161 and the Orange Line at Warner Center. These connections match up with the two morning and two afternoon ParkLINK connections to Agoura Road from Malibu Creek State Park.

The last bus making a connection to Agoura Road departs from Malibu Creek State Park at 5:05 p.m. Taxi service is available for those who miss the last bus (call 310-456-0500).
